## Surface Finish Codes

Description	Designation	Code
AR Plus®	AB	AB
Gloss	GLS	90
Matte 58	MAT	58
Metallic	Metallic	99
MicroDot	MIC	MC
Midgrain	MGN	47
Naturelle	NAT	NT
NDF	NDF	11
Quarry	QRY	75
Rigato	RIG	RT
Sculpted	SCU	SP
Softmat	SMT	73

The choice of surface finish is important functionally as well as aesthetically. The following textures are ideally suited to vertical and light-duty horizontal applications, where the laminate will not be in contact with objects that may damage the surface: Rigato (RT), Gloss (90), Naturelle (NT), NDF (11), Softmat (73).

### Compact Promoted Thicknesses (CGS Grade):

Single Sided Compact: 2, 2.5, 3 mm

Double Sided Compact: 4, 6, 8, 10, 12, 13, 16, 18, 20 mm

**Grade HPL/EN 438-3 HGP** Horizontal, General Purpose, Postforming high pressure decorative laminate. (0.7mm nominal thickness).

**Grade HPL/EN 438-3 HGS** Horizontal, General Purpose, Standard high pressure decorative laminate. (0.7mm nominal thickness).

**Grade HPL/EN 438-4 CGS** Compact, General Purpose, Standard high pressure decorative laminate.

All AR Plus® laminates are delivered with a protective peelcoat.

Matching edgebanding references are available at [formica.com](http://formica.com)

Diamond Black AR Plus will more readily show signs of wear than lighter AR Plus colours.

**Grade PAR** Abrasion-resistant, High-gloss, Postforming high pressure decorative laminate.

PAR does not appear in the EN 438 grade classification system.

## Surface Finish Codes

Description	Designation	Code

All ColorCore® laminates are delivered with a protective peelcoat.

ColorCore is available in decors selected from the Formica® Colors range. Due to the special characteristics of ColorCore, exact matches between ColorCore and Formica Colors may not always be possible. We recommend the comparison of actual samples prior to specification or fabrication.

Black Gloss will more readily show signs of wear than lighter gloss colours.

**Grade HPL/EN 438-9 BTS** Coloured core, Standard Grade, Thin high pressure decorative laminate.

## Mode

Code	Name	Grade	Sheet size (mm)								
			2150 x 950	2350 x 950	2350 x 1300	2440 x 1220	3050 x 1220	3050 x 1300	3660 x 1525

Mode provides the ultimate in creative potential from an 'off the shelf' pattern. Three scales offer different perspectives, from 'textile' to boldly geometric looks. Positive and reverse options give even more choice. The timeless appeal of dot graphics is updated through a random layout to offer a fresh look. Select from the promoted offer above or create your very own combinations using any Formica® plain colour with NCS, RAL or PMS dots.

## Surface Finish Codes

Description	Designation	Code
AR Plus®	AB	AB
Gloss	GLS	90
Matte 58	MAT	58
Metallic	Metallic	99
MicroDot	MIC	MC
Midgrain	MGN	47
Naturelle	NAT	NT
NDF	NDF	11
Quarry	QRY	75
Rigato	RIG	RT
Sculpted	SCU	SP
Softmat	SMT	73

The choice of surface finish is important functionally as well as aesthetically. The following textures are ideally suited to vertical and light-duty horizontal applications, where the laminate will not be in contact with objects that may damage the surface: Rigato (RT), Gloss (90), Naturelle (NT), NDF (11), Softmat (73).

### Compact Promoted Thicknesses (CGS Grade):

Single Sided Compact: 2, 2.5, 3 mm

Double Sided Compact: 4, 6, 8, 10, 12, 13, 16, 18, 20 mm

Code	Name	Grade	Sheet size (mm)						3050 x 1300	3660 x 1525
			2150 x 950	2350 x 950	2350 x 1300	2440 x 1020	2440 x 1220	3050 x 1220

All DecoMetal® laminates are delivered with a protective peelcoat.

**Grade HPL/EN 438-8 MTF** Metal, Flame retardant, Thin high pressure decorative laminate.

**Grade HPL/EN 438-8 MTP** Metal, Postforming, Thin high pressure decorative laminate.

*MTF & MTP grades are recommended for vertical applications.*

*DecoMetal® laminates meet the requirements of EN438:2005*

*Grade MTF with IMO/MED and USCG fire requirements approval. Please request specific details.*

# Product description

## Formica® Laminate

THE ORIGINAL HIGH PRESSURE LAMINATE *by FORMICA GROUP*

Formica® High Pressure Laminate (HPL) is manufactured through fusing multiple layers of impregnated paper under high pressure and temperature to create a hard wearing, durable and hygienic surfacing material. The Formica® Colors, Patterns and Woods ranges are high pressure laminates which are available in horizontal grade postforming (HGP) as standard. Flame retardant HPL (VFP grade) is also available on request.

## Formica® Compact

STRUCTURAL LAMINATES *by FORMICA GROUP*

Formica® Compact is a high pressure structural laminate, built up from multiple layers of kraft paper to produce a laminate in thicknesses from 2mm to 20mm. It has a decorative face on both sides and is ideal for interior use in washroom cubicles or locker doors, wall panels or laboratory furniture. It is particularly suited to use in high humidity, high impact areas. With a density of 14 kg/m<sup>2</sup> (for 10mm thickness), Compact is impressively strong and damage resistant and has remarkable structural stability, requiring no substrate support in thicknesses over 6mm. Formica® Compact is certified by the CE Mark to meet or exceed conformity with European consumer safety, health and environmental requirements.

## ColorCore®

*by FORMICA GROUP*

SOLID COLOUR LAMINATES

ColorCore® by Formica Group is a dramatic and exciting surfacing material, in 1.3mm thickness, that features the high performance characteristics of Formica® decorative laminates with the added dimension of solid through colour. This homogeneous colour obviates the dark line sometimes associated with laminate edges and permits decorative effects to be created by engraving and sandblasting. ColorCore® in Matte 58 texture increases levels of wearability and reduces the visual impact of chips and scratches. ColorCore is ideal for applications such as counter tops, point-of-sale units, doors and work surfaces.

ColorCore is available in decors selected from Formica Colors range. Due to the special characteristics of ColorCore, exact matches between ColorCore and Formica Colors may not always be possible. We recommend the comparison of actual samples prior to specification or fabrication.

PREMIUM GLOSS FINISH *by FORMICA GROUP*

AR Plus® by Formica Group in Colors and Woods offers a hassle-free, durable high gloss laminate with twice the surface performance of standard gloss laminate. The AR Plus® technology delivers a gloss surface that is highly resistant to scuffs and mar abrasions, extending the gloss laminate life cycle. AR Plus high gloss laminates are 1.2mm thickness postforming grade. Due to the increased thickness of this material a minimum radius of 15mm is recommended. Flame retardant AR Plus laminate (FAR grade) is also available on request.

## DecoMetal®

*by FORMICA GROUP*

METAL LAMINATES

DecoMetal® by Formica Group high pressure laminate is created using real metal foils over a laminate core to create stunning metallic laminates that are durable but very light compared to sheet metal. Textures and patterns are applied to some metallic laminates to create outstanding effects. A complete range of striking colours, patterns and finishes is available. Nominal thickness varies depending upon metallic foil and texture.

DecoMetal® laminates meet the requirements of EN438:2005 Grade MTF with IMO/MED and USCG fire requirements approval. Please request specific details.

*This Collection incorporates the following grades of decorative laminate each with its own performance characteristics. These grades conform to EN438:2005.*

## **Formica® Laminate**

<b>Grade HPL/EN 438-3 HGP</b>	Horizontal, General Purpose, Postforming high pressure decorative laminate. (0.7mm nominal thickness).
<b>Grade HPL/EN 438-3 HGS</b>	Horizontal, General Purpose, Standard high pressure decorative laminate. (0.7mm nominal thickness).
<b>Grade HPL/EN 438-3 VFP</b>	Vertical, Flame retardant, Postforming high pressure decorative laminate. (0.7mm nominal thickness).

## **AR Plus® by Formica Group**

<b>Grade PAR</b>	Abrasion-resistant, High-gloss, Postforming high pressure decorative laminate.
<b>Grade FAR</b>	Flame retardant, High-gloss, Standard high pressure decorative laminate.

*PAR and FAR do not appear in the EN 438 grade classification system.*

## **ColorCore® by Formica Group**

<b>Grade HPL/EN 438-9 BTS</b>	Coloured core, Standard Grade, Thin high pressure decorative laminate.
-------------------------------	--

## **Formica® Compact**

<b>Grade HPL/EN 438-4 CGS</b>	Compact, General Purpose, Standard high pressure decorative laminate. EN 13501 Euroclass C-s1,d0
<b>Grade HPL/EN 438-4 CGF</b>	Compact, General Purpose, Flame Retardant high pressure decorative laminate. EN 13501 Euroclass ≥ 6 mm B-s1,d0 < 6 mm B-s2,d0

## **DecoMetal® by Formica Group**

<b>Grade HPL/EN 438-8 MTF</b>	Metal, Flame retardant, Thin high pressure decorative laminate.
<b>Grade HPL/EN 438-8 MTP</b>	Metal, Postforming, Thin high pressure decorative laminate.

*MTF & MTP grades are recommended for vertical applications.*

*DecoMetal® laminates meet the requirements of EN438:2005*

*Grade MTF with IMO/MED and USCG fire requirements approval. Please request specific details.*
